The Chemical Age

Index to Volume L — January to June, 1944

A

Acrylic Resins, 334
A.C.S. Awards, 525
A.C.S. Meeting at Cleveland, 551
Activated Alumina, 223, 389
Alginate Supplies, Calcium, 126
Alkali Metals in Alloys, 143
Alloys After the War, Light, 231
Alloys, Cast Copper, 434
Alloys, Endurance of Iron, 439
Alloys, Iron-Rich Nickel, 442
Alloys, The Finishing of Light, 440
Aluminium Alloys, Welding, 124
Aluminium, Canadian, 149
Aluminium Industry, Hungarian, 317
American Developments, 119
American Sugar Research, 311
Analytical Chemistry, Recent Developments in, 351, 595
Apparatus, New, 209
Arbitration Cases, National, 558
Army Analysts in North Africa, 127
Association of Scientific Workers, 531
Association of Tar Distillers, 397, 415
Australian Official Research, 122

AUTHORS—

Barnes, H. F., Fuel Efficiency Lecture (Temperature Measuring Instruments), 289
Bikerman, J. J., Colloid-Chemical News of the Year, 63; Bradford, S. C., Availability of Scientific Information, 335
Couzens, E. G., Plastics: A Review of Progress in 1943, 75; Creevey, J., Fire Risks and Post-War Industry, 189, 271, 413, 481, 577.
Dall, H. E., Fuel Efficiency Lecture (The Metering of Process Steam), 161; Davies, W. Cule, Activated Alumina, 223
Einerl, O. P., The Alkali Metals in Alloys, 143
Farmer, F. R., Fuel Efficiency Lecture (Driers: Heat and Mechanical), 5; Farrant, J. C., Fuel Efficiency Lecture (Grinding Plant), 101; Foxwell, G. E., Fuel and the Carbonising Industry in 1943, 54
Green, G. Colman, Progress in Drugs and Fine Chemicals in 1943, 42; Solvent Extraction, 475, 497, 519; Grose, J. W., Fuel Efficiency Lecture (Evaporators), 409
Harwood, J., Activated Alumina, 223; Howat, D. D., Carbon Dioxide, 243, 265, 285
Lerner, M., Superphosphate and Basic Slag, 431; Liddiard, P. D., The Industrial Pickling of Metals, 435
Malley, J., Fuel Efficiency Lecture (Economics of Methods of Producing Vacua), 203
Neurath, F., The Alkali Metals in Alloys, 143
Palethorpe, L. G. Whybrow, Nitriding, 11; Oil Quenching, 83; The Metallurgy of Molybdenum, 315; Parrish, P., Conditions in, and Some War Problems of, the Heavy Chemical Industry in 1943, 27; Powell, R. H., Development in Laboratory Apparatus, 377
Ritchie, Dr. E. G., Fuel Efficiency Lecture (Steam Peaks), 329

Automatic Control, Conference on, 483

B

Barytes Market, The British, 167
Basic Slag, Superphosphate and, 431
B.C.D.T.A. Annual Meeting, 485
Birmingham Chemists, 434
Bituminous Products, 434
Bombay, Chemical Technology in, 443

BOOK REVIEWS—

AnalaR Standards for Laboratory Chemicals, 396
Dictionary of Organic Compounds, Vols. II and III (Heilbron and Bunbury), 361
Electronic Theory and Chemical Reactions (R. W. Stott), 252
Journal of the Electrodepositors' Technical Society, 362
Metal Surgery (H. H. Hollis), 484; Modern Synthetic Rubbers (H. Barron), 252
Plastics (H. R. Fleck), 253; Post-Graduate Lectures (E. J. Bowen), 396
Quantitative Chemical Analysis (Reilly and Moynihan), 362
Solvents (T. H. Durrans), 252; Spectrochemical and Polarographic Analysis of Aluminium and its Alloys, 252; Standard Methods for Testing Petroleum and its Products, 484; Systematic Qualitative Organic Analysis (H. Middleton), 361
Two Czech Chemists (G. Druce), 484
Ultra-Fine Structure of Coals and Cokes, 396
War-Time Information for Pharmacists, 484
Brass Cartridge Scrap, 15
Briquetting Iron Ores, 318
British Association of Chemists, 202
British Industrial Plastics, 228
British Plastics Federation, 505
B.T.H. Progress in 1943, 166
Building Materials, New, 314

C

Calcium Alginate Supplies, 126
Canada Short of Potash Fertilisers, 96
Canada's Mining Industry, 193
Canadian Aluminium, 149
Canadian Hexachlorethane, 253
Canadian Industries, Ltd., 600
Canadian Resources Board, 393
Carbon Deposits, Removing, 355
Carbon Dioxide: I, 243; II, 265; II, 285
Cellulose Triacetate, 81
Ceramics To-day, 556
Chemical Engineering Group, 395, 479
Chemical Industry in Italy, 608
Chemical Industry in 1943, Conditions in and Some War Problems of the Heavy, 27
Chemical Plant Construction, U.S., 121
Chemical Plant, Corrosion of, 528
Chemical Reactions, Speed of, 389
Chemical Research in Eire, 84
Chemical Society's President, 465
Chemical Society, 417
Chemical Strike, 275
Chemical Technology in Bombay, 443
Chemicals and Metals of Yugoslavia, 429
Chemicals in South Africa, 309
Chemicals, Miscellaneous, 496
Chemist and Public Health, The, 578
Chemistry and Beet Sugar, 357
Chemistry in China To-day, 171
Chemurgy, The Importance of, 253
Chlorine Dioxide Production, 356
Chromium Compounds, Production of, 355
Chromium-Plating Technique, New, 433
CIBA Annual Meeting, 556
Cleveland, A.C.S. Meeting at, 551
Coal Analysis, New Step in, 461
Coal and Chemical Industry, 543
Colliery, Research at the, 169
Colloid-Chemical News of the Year, 63
Colonial Products Research, 554
Colour Index, New, 550
